MUDDY ROADS BOOST BONDS

FARMERS SAY RAINY WEATH-
ER CONVERTS THEM TO
ROAD BONDS

Condition of roads in Wilbarger
county during the present and es-
pecially during the period of heavy
rainfall constitute one of the best
arguments for road bonds, accord-
ing to many farmers who came into
Vernon during the rain. Some farm-
ers were so completely isolated they
were unable to come to town save
on horseback and one farmer is
said to have hitched four mules to
a wagon to come in for a sack of
flour and a few other articles of
food.

Although Electra was not at all
bothered by blocking of traffic be-
tween that point and Wichita Falls,
people from Electra were entirely
cut off from Vernon save by rail
and people from Vernon could not
get to Electra to transact business
unless they went by rail or spent
several hours in the mud and dam-
aged their cars. The gap of road
in Wilbarger county beyond the
paving and before the Wichita
County paving is reached, has been
almost impassable for more than a
week.

Farmers who live on or near the
paving were able to come to Ver-
non as often as they liked and keep
in touch with affairs just the same
as persons who lived in town. Many
farmers who had automobiles but
lived miles from the paving, had no
use for their cars at all and were
just as far from town as if they
did not own automobiles.

Record Occupies Own Building on Down Town Corner

The Record is now located in its
own building at Texas and Cumber-
land streets. The building has just
been completed and was designed
and constructed especially as a
newspaper plant. The equipment
was moved in this week.

The new Record building is one
story and is built so as to furnish
a maximum amount of light on the
interior and for convenience.

Plan for Fight Between Bowers and Scott McCarty

Harold Hays of Rockwall is in
Vernon trying to match a boxing
out between Dick Bowers of Ver-
non and Scott McCarty of Rock-
wall. The fight is proposed for
Saturday night, November 10.
Although McCarty outweighs
Bowers by a margin of approxi-
mately 15 pounds the game local
fighter has agreed to meet him pro-
vided some place can be found to
hold the event. The fight will de-
pend upon locating a place. It was
said today.

QUANAH IS HERE FOR BATTLE ON GRIDIRON TODAY

Runs Special Train Bringing
Boosters to Witness Elim-
ination Game With Vernon
at Fair Grounds This After-
noon at 3:45 O'clock

Out on the gridiron at the Fair
Grounds this afternoon at 3:45
o'clock one of the hardest football
games this section of Texas has
ever known is to be played. The
game between Quanah and Vernon
to see which team plays Wichita
Falls for the championship of this
end of the district, must be played
this afternoon rain or shine, sleet
or snow.

Hundreds of Vernon residents are
going to the game today to boost
for the home team and the Vernon
Concert Band is to be there to fur-
nish music. Most all of the busi-
ness houses have let a majority of
their employees off to see the game
and from nearby town scores of
people have come.

Quanah is running a special train
to accommodate the crowd from
there which is coming to back up
their high school team. The town
is solid behind its team and are
coming here with a determination
to see their boys win over Vernon.

Wichita Falls will have several
scouts here to watch the game,
among them being Coach Bud Mc-
Callum of the Wichita Falls high
school team which will play the
winner of the game today.

Couch Galbraith expressed con-
fidence this morning that the Vernon
team will be able to hold its own
with the heavy Quanah aggrega-
tion. Quanah's weight will be in
its favor on the muddy field, but
the local team has a whole lot be-
sides weight which is expected to
make up for the surplus. It is
highly probable that Coach Gal-
braith will not start all his first
line men in the game, but will put
them in if Quanah shows too strong
a team for the first line up to han-
dle.

The game was to have been play-
ed last Friday but was postponed
on account of rain.

CEMETERY ASSOCIATION ASKS FINANCIAL AID

The women of the Cemetery As-
sociation are asking that all mem-
bers, who are in arrears for dues
pay promptly. They are badly in
need of funds and the sale of lots
and the amount charged for the
digging of graves will not pay the
society's salary.

The excessive rain fall is causing
a vast amount of extra work in the
cemetery and extra money is need-
ed at this time. Donations of pec-
uniary other than members are asked.
Donations or dues are to be paid to
Mrs. J. E. Collins of Paradise street.
Mrs. A. M. Hiatt of West Texas
street, Mrs. Della Houssels of Wil-
barger street or Mrs. S. W. Bailey
at the Bailey hotel.

many.

SENSATIONAL CHARGES MADE AGAINST FORBES.

Col. Charles R. Forbes.

Sensational charges have been made at a Senatorial investigation
committee meeting in Washington against Colonel Charles R. Forbes,
former Director of the Veterans' Bureau. He has been charged with
borrowing \$5,000 from a contractor, to whom he is said to have given
advance information as to the location of proposed hospitals; of having
been on wild drinking parties with the same man; of having planned to
sell, illegally, large stores of Government narcotics and of having planned
a personal profit of \$150,000 on hospitals for veterans. Forbes resigned
early this year, when disabled ex-service men protested they were not
being justly treated.

THIRTY CENT COTTON AGAIN

SPOTS AND FUTURES CLIMB
ON GOVERNMENT CROP
REPORT

Spot cotton was up to 30 cents
per pound today following the Gov-
ernment's supplemental report
which showed the total crop to be
10,245,000 bales, or approximately
1,000,000 under the original govern-
ment estimate.

Futures started climbing shortly
after a skirmish between bears and
bulls at the early opening and be-
fore noon December New York had
gone to 31.40 with December New
Orleans delivery at 30.88.

Great Englishman Dies Following Severe Illness

Andrew Bonar Law, one of En-
gland's greatest statesmen and the
only colonel who rose to the po-
sition of Prime Minister, died in
London this week. His death came
following an illness of several
months due directly to a nervous
breakdown, physicians said.

Bonar Law was one of the fore-
most of England's war time states-
men and the policy of that nation
during the world war was shaped
to a great extent, by him and
others of his political faith. He had
many enemies, however, and his
President Harding, he practically
gave his life for his country al-
though he retired from politics
some time before death came.

Orders New Machinery.

A new planing machine, which
will cut the Cole Tailoring Com-
pany plant on a par with any plan-
ing in this section of the state, is to be
installed at an early date. The
machine has been shipped and will
be installed at an early date.

Donation for Fire Department.

A check for \$20 was mailed the

night.

COURT DECLARES BONDS INVALID

PERMANENT RESTRAINING OR-
DER ISSUED AGAINST
\$100,000 BONDS

The bond issue of \$100,000 voted
in Vernon in January, 1922, for the
purpose of building an electric
light plant was declared invalid by
District Judge James V. Leak in the
46th District Court here late
Tuesday afternoon and a permanent
restraining order issued against the
issuance of the bonds. The decision
came following a trial lasting
almost two days.

The style of the case was Mrs.
Charlotte V. T. Montgomery against
the City of Vernon. The original
suit was brought by R. E. Mont-
gomery before his death and was
taken up by the widow. Mr. Mont-
gomery was one of the original or-
ganizers of the town of Vernon and
at the time of his death was one
of the heavy tax payers of the city.
Allegations set forward in the
case charged irregularities in the
drawing of the ordinance calling
for the bond election and other fea-
tures which the plaintiff claimed
should cause the bond issue to be
declared invalid.

The jury list announced for the
second week of the 46th District
court now in session here, each
man on the list to report November
5, follows:
H. J. Goss, D. E. Randel, G. S.

DE LA HUERTA IS SEEK- ING MEXICAN PRESIDENCY

Adolfo de la Huerta, long a fac-
tor in Mexican politics and former
Minister of Finance in the Mexican
Government, is a candidate for the
Presidency in opposition to Presi-
dent Obregon.
The suit was quashed on a technical
ground, the allegation of the attor-
neys for the commission being that
the number of the suit was not plac-
ed in the citation.
The first case in Wilbarger coun-
ty to be handled under the new law,
which makes it a penitentiary of-
fense to drive an automobile while
intoxicated has been given to the
grand jury here, according to offi-
cers. Duke Davis, of Electra, was
arrested last night on the Electra
Road just after he is said to have
driven head on into an automobile
driven by Miss Maybelle Nabers and
District Attorney John Storey said
this morning that Davis will be
charged under the new law.
Sheriff Frank Edmondson had re-
ceived a call that someone was dy-
ing in the small creek that crosses
the Electra road out on the paving.
He rushed to the place and found
that a horse had fallen in the creek
and it was the groans of the horse
that sounded like someone dying.
The sheriff drove up on two badly
wrecked automobiles. An investi-
gation proved the sheriff said, that
Miss Nabers with Maury Hopkins,
secretary of the Flovanda Chamber
of Commerce, and Miss Alline Hop-
kins, the latter's sister, were driving
at a slow rate of speed along the
pavement when they were run into
by the automobile driven by Davis
who had in the car with him Tom
Jones, also of Electra. Both Davis
and Jones were arrested by Sheriff
Edmondson.
Miss Nabers' car was badly
wrecked and the car driven by the
other party was also damaged but
no one was injured. This morning
witnesses in the case were called to
the grand jury room.
The new law is very stringent. It
makes it a penitentiary offense for
any person to drive an automobile
while intoxicated. Until today no
cases had been filed in this county
under the new law, but officers said
that in the future there may be
more of them.

CAPT. WATSON ON TRIAL IN SHIP DISASTER

Captain E. H. Watson.

Captain Edward H. Watson, U.
S. N., who commanded Squadron 11
of the Pacific fleet, from the flag-
ship Del Rio, is now on trial, with
10 of his officers, before a general
court-martial, in San Francisco, in
connection with the wrecking of
eight of his vessels, which were
piled up on the rocks of the Cali-
fornia coast in a thick fog. All
the vessels were total wrecks.
Several lives were lost. It is ad-
mitted the ships were far off their
course when the accident occurred.

Bill Coffey Has Sensational Rise in Football World

According to reports from Waco
the Baylor University team is
counting strong on Bill Coffey, son
of F. P. Coffey of Vernon, to carry
off the pluckin across A. & M.'s goal in
the big game Saturday. Coffey is
playing center on the Baylor Uni-
versity team.

The rise of Bill Coffey in the
football world has been little short
of a sensation. He played splendid
high school football and last
year was his first at Baylor.
He showed as well on the club team
and this year he was given a try-
out at quarter with the first line
players. He played such a brilliant
game in the performances that he was
started in one of the big games in
stead of either of the two Veterans
Baylor quarters. He continued to
play such sensational football that
he has been used as center in every
big game Baylor University has
had this season and now he is the
standby of the team in the
fight against A. and M.

JUDGE LEAK QUASHES SUIT FOR MANDAMUS

Judge James V. Leak of the 46th
District Court quashed the manda-
mus suit brought by initiating com-
mission to compel the City of Vernon
to call an election for the pas-
sage of an ordinance by the com-
mission several weeks ago when a
petition signed by a large number of
citizens was presented asking the
passage of the ordinance.
The suit was quashed on a technical
ground, the allegation of the attor-
neys for the commission being that

LIGHT COMPANY IS DENIED RELIEF IN CASE AGAINST CITY

Judge Leak Decides for City
in Case Alleging Improper
Handling of Funds in Con-
struction of Electric Light
Plant

Judge James V. Leak in forty-
sixth district court here today de-
nied the relief sought by the Ver-
non Electric and Ice Company in
the suit against the City of Vernon
alleging certain irregularities in
the handling of the funds of the
city in the construction of an elec-
tric light plant and making im-
provements, additions and better-
ments in the water works plant.
In addition to denying the allega-
tions of the Company the court
gave the City the authority to
transfer to the permanent improve-
ment or third class fund, approxi-
mately \$8,000 which had been ac-
cumulated to provide interest and
sinking funds for the \$100,000 elec-
tric light bond issue which Judge
Leak declared invalid Tuesday.

The ruling on this point was that
since the bond issue had been de-
clared invalid and the City refrain-
ing from issuing or selling these
bonds there was no longer any nec-
essity for holding the money collect-
ed to pay interest and sinking funds
in a separate account.
The case decided today is the
same one which the Court of Civil
Appeals last week reversed and re-
commended and ordered the local court
to issue a restraining order against
the continuance of certain alleged
improper handling of funds and ac-
counts by the city until the case
could be heard more fully on its
merits. On a previous hearing held
early last month Judge Leak denied
a temporary injunction and it was
on this question that the case was
taken to Amarillo for decision.

The trial of the case on its merits
was taken up before Judge Leak
late Tuesday afternoon, following
his decision in the case attacking
the validity of the bond issue voted
in January, 1922, for the erection
of a municipal plant. A number of
witnesses appeared and the tak-
ing of evidence was not concluded un-
til late yesterday afternoon.

JAL MEETING OF TUTS CALLED NEXT THURSDAY

Important Matters Coming
Up for Discussion at Dinner
To Be Served During Business
Session at Bailey
Hotel

The King Tut club will meet in the Sun Parlor of the Bailey Hotel next Thursday night at 7 o'clock to transact important business. A dinner will be served at the time and the only program will be one of business. The meeting was decided on when a quorum of members met in the Chamber of Commerce rooms last night.

Emphasis was placed on the fact that every member of the Tut club should be out at the meeting Thursday night for business of vital importance not only to the club but to Vernon is pending for discussion.

On the night of November 20 the Tut club will be guests of the West Texas Chamber of Commerce at a dinner to be given at the Liberty Cafe. President Spencer of the West Texas Chamber of Commerce will be here to preside at that meeting and there will be an elaborate program. Since the Tut club has been a member of the Chamber of Commerce since its organization, it is a privilege to be invited to the special business session. The meeting for next Thursday night was decided on as the best time to transact all business now pending.

Every member of the Tut club has pledged himself to an active campaign in behalf of Vernon and for that reason the officers expect all members to be at the meeting Thursday night. The membership of the club is composed of men who pledged themselves to live up to the rules, the main one of which is to attend the meetings and be an active worker for the good of the community at all times.

BOXES TO BE SENT BY BAPTIST WOMEN

The women of the Baptist church have been very busy for the past two weeks packing boxes and gathering supplies for the Buckner Orphan's Home. Last week two large boxes well filled with things to make the children of the home comfortable were sent to Dallas. This week another box is being prepared for shipment and will be sent away next week. Donations in the way of clothing for the children, bed linen, or money for the home will be sent either to Mrs. J. O. Wright or Mrs. J. O. Rouse.

On account of the continued bad weather, the box to be sent to Miss Groves, missionary in China, was not shipped Wednesday as announced. The box will be sent Monday. Any gifts for the box will be received by Mrs. J. O. Wright and Mrs. J. O. Rouse. The box will be packed by the members of the Baptist church and sent to the Pendergast Music store where Mr. Pendergast will pack them carefully for their long journey.

The committee asks that the gifts be sent in right away for both boxes.

GIANTS' SHORTSTOP RECOVERS HEALTH

DAVE BANCROFT.

Dave Bancroft, shortstop for the New York Giants, writes: "I have used FERRASAL for a year with splendid results. During the playing season, whenever I was troubled with indigestion, I took FERRASAL and it kept me in fine condition all year. I have given FERRASAL to friends with the same splendid results."

DAVE T. BANCROFT, "Care New York Giants."

Dave Bancroft has been benefited by FERRASAL and recommends it from actual experience.

90% of our health troubles begin with indigestion. The real cause is excess acid. FERRASAL gets at the source of the trouble by neutralizing the excess acid and expelling it from the system. It also aids digestion, keeps the alimentary tract clean and disordered and the kidneys regular.

FERRASAL is not a purgative, it is a mild, active and absolutely harmless.

Take FERRASAL REGULARLY, NIGHT AND MORNING, FOR 2 WEEKS. It will sweeten your stomach, keep your skin and face free of all blemishes and give you a more youthful appearance.

FERRASAL is a mild, active and absolutely harmless.

IN SOCIETY JUNIOR LEAGUE ENTERTAINED ON HALLOWEEN

The home of Mr. and Mrs. E. H. Pigg on West Paradise street was the scene of a merry Halloween party Wednesday night when Mrs. Pigg, assisted by Mrs. J. B. Morris and Miss Lizzie Reese, entertained the members of the Methodist Junior League.

The little guests upon arrival were led through the reception rooms, library and dining room where snacks seemed hiding in every nook and corner. The soft lights leading an irresistible charm to the scene which set every heart beating with joy and expectancy as they followed their leaders down the hallway to the spacious basement rooms lastly decorated for this occasion. Here a delightful evening was spent in various games and fortune telling with a feast of apples, doughnuts, spinach and as favors, little Halloween baskets filled with nuts and candies.

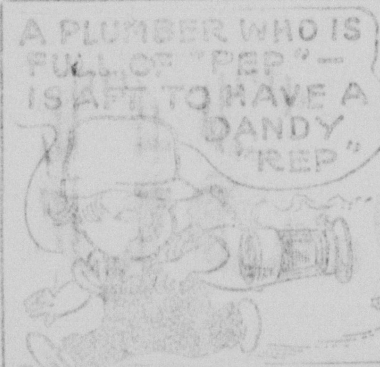

As the League's table their hostesses and night life were met at the side door by Messrs. E. H. Pigg, J. B. Morris, L. D. Telford and Kelly Pigg, who took them in cars to their homes. About fifty-five children attended.

The Junior League includes children between the ages of 8 and 12, and meets in the basement of the church each Sunday evening at 6:30 p. m. Special programs are arranged for each week under the leadership of Mrs. Pigg and Miss Reese.

ENTERTAIN WITH SOCIAL AT CHURCH PARLORS

The women of the Baptist church entertained about fifty guests Monday afternoon with a Halloween social in the parlors of the Baptist church. The rooms were decorated for the occasion carrying out the Halloween motif. A musical program was given. Mrs. G. T. Adams and Mrs. T. L. Rouse gave a piano duet. Mesdames W. A. Lane, E. A. Vernon, G. T. Adams and S. P. Ingram sang a quartet and a number. Mrs. J. N. Wright sang.

Divisions for the afternoon consisted of fortune telling by an im-

KUT BANQUET NOVEMBER 20

LOCAL BOOSTER CLUB MEMBERS TO BE GUESTS OF
W. T. C. OF C.

Detailed plans are being made for the big dinner to be given by the West Texas Chamber of Commerce on the night of November 20 to the members of the King Tut Club. The dinner will be served by the Liberty Cafe, the West Texas organization having arranged to occupy the dining room for the evening.

President A. B. Spencer of the West Texas Chamber of Commerce will be here to act as host and will be meeting a campaign will be launched for more memberships in the West Texas Chamber of Commerce. While there are a large number of votes here now in the organization there are not as many in some other towns that are holding the 1925 convention and number of memberships here is one of the big weapons in the fight for the 1925 convention.

INSURANCE MEN HAVE BIG TIME IN DALLAS

Dewey Wilson has returned from Dallas where he attended a convention of the Texas agents of the Pacific Mutual Life Insurance Company. Mrs. Wilson accompanied him to Dallas and remained over several days.

Wilson said the insurance men were royally entertained, the banquet being given for them at the Adolphus hotel. He was also guests of the company at shows and on sight seeing.

DEER SEASON OPENED NOV. 1

HUNTERS FROM VERNON SO MAKE PLANS FOR SPORT

The muddy roads leading to the hunting territory in Wilbarger county have not been conducive to hunting during the past few days. Sportsmen have managed to get through the mud to their favorite haunts and report ducks coming in fast. A few hunters are said to have gotten very near the bag.

Porting goods dealers report a demand for guns and ammunition. Some Vernon sportsmen were going to go into deer hunting territory for the opening of the deer season yesterday, but were deterred on account of the muddy roads. Others, however, went on trains to the nearest railroad station from the hunting grounds to look a chance on the roads.

A small grocery store operated by Luntier on Fannin street was destroyed by fire at an early Wednesday morning. The store was only partially covered by insurance and the owner, which was owned by C. H. Luntier, was not insured. The fire has not been determined.

Mrs. C. T. Smith returned yesterday from Dalhart where she went to get her automobile. They were forced to abandon the car on account of impassable roads. They were forced at this time to the car in Amarillo on account of same road conditions.

TEXAS AGGIES WANT VENGEANCE

SECRET TRAINING INDICATES TEAM HAS GAINED STRENGTH

College Station, November 2.—The brisk weather of this week has enabled the Aggies to train for the Baylor Bears whom they will meet on the Cotton Palace gridiron Saturday with vim, vigor and vitality and to the scribes and other privileged ones of more or less official authority who have been able to penetrate the wall of secrecy that has been placed around the training field at practice periods it appears that the Aggies have recovered from the slough of dejection which was a consequence of the drubbing which S. M. U. gave them on Kyle Field last Friday.

It is a weak done that can be compounded for the Aggies' conduct in the game Saturday, so apparently weak as to make it seem unreliable for any dependence and so doubtful as to be hardly acceptable to sports editors. As ingredients for any hope of speculation there are the elements of the finest kind of play displayed by the Aggies in all games preceding that of last week and then the evidence of utter disorganization which came to light in their game last Friday. Their game against Seawance and L. S. U. would put the Bears in insignificant position in comparison and their game against the Mustangs would certainly make the Aggies the underdogs in the coming Saturday fray.

And there seems to lodge the most dependable indications. The Farmers have always fought their best fights in the underdog position. They seldom follow a course of action prescribed for them by the sports writers. They ascend to pinnacles of glory by entering the lists in disfavor with the betters and they fall upon their backs when they rush on the field under the admiring glance of unanimous confidence from the grandstands. They make points when none are expected and fail to score when they are credited in advance with the power to pile them high.

It would be another upset for them to continue the pace set against the Mustangs on the Waco field Saturday. So subject are they to the law of reversion that it is most likely that they will exhibit the strength or weakness of other days than that of last Friday, this week. The strenuousness of their play in practice this week indicates they have swung into the harmonious pace set earlier in the season. As usual the Aggie hosts will accompany the team, fully confident that the game Saturday will in its scintillating glory outside the dark despair which clouded their hopes when the sickening thud of the Aggies' fall from the high place they had achieved for the final dive to the Southern Championship struck their consciousness. That they want revenge and that they have no scruples in taking a pound of it from nearest the heart of the Bears is undeniable to those who remember who it was that shook them from the limb of the championship hopes last year.

Some residents of the county have suggested that there is no occasion for haste in voting additional bonds for the pavement of the roads of the county because the money voted two years ago has not yet been expended. A little investigation of the reasons for the seeming tardiness in spending the bond issue voted in October, 1921, will convince most people that the Commissioners' Court has followed the safe policy, The Record believes.

In the first place, there is much preliminary work to be done in inaugurating a road building campaign. First of all the roads must be laid out and plans drawn for them. Just as an architect draws plans for a house. These plans then must be approved by the State Highway Commission and the Federal Bureau of Good Roads, where the road to be improved is a Federal aid project. After this is done the contracts must be let and the contractors have to begin assembling machinery and materials.

In most cases an entirely new road grade must be thrown up and a new grade must be given ample time to settle before it is wise to begin laying concrete. One of the reasons for the delay in the work on the Colorado-Gulf highway is because of this fact. Still another factor must be taken into consideration is the matter of hastily building roads. It is far better for the taxpayers that the roads be first class than that they should be built in a short time. It is impossible to spend a great sum of money on any kind of a project in haste without unnecessary waste. The Commissioners have preferred to move more slowly rather than to rush through with their road construction and take chances on getting good value for the money expended.

Engineers from the State and Federal road departments have repeatedly stated that Wilbarger County is getting better roads for the same or less money than any other county in Texas. In the opinion of The Record this result is ample justification for the lack of haste in carrying out our road building program.

MR. OUSLEY'S FITNESS FOR THE TECH PRESIDENCY.

Newspaper reports declare that the board of regents of the Texas Technological College have been unable to agree on the election of a president, stating that the members of the board deadlocked between B. B. Cobb of Waco and Clarence Ousley of Fort Worth.

The Record knows nothing about Mr. Cobb or his qualifications for the presidency of the new school, but there can be no doubt of Mr. Ousley's ability. He is one of the most scholarly men in Texas. He is one of the best known men in Texas and his fame as a man of unusual attainments is by no means confined to this state. He served as assistant Secretary of Agriculture during the Wilson administration and his work during the war through the Department of Agriculture and with the Texas Agricultural and Mechanical College won the admiration of his associates throughout the country.

Mr. Ousley's selection to head the new state school would give the institution a prestige and a dignity that would prove an invaluable aid in getting its work started under the most favorable conditions.

The Record believes that the

NEW COMMANDER OF AMERICAN LEGION.

Captain John R. Quinn in 1922, at New Orleans, invited the American Legion to meet at San Francisco in 1923, and to prove that the Legionnaires appreciated the invitation and the good time they had in the Golden Gate City they elected Quinn their new National Commander. Quinn, who was born in Porterville, Cal., in 1889, lives now in Delano, Kern County, Cal. He graduated from the University of California in 1912, joined the Second Officers' Training Camp at the San Francisco Presidio and went overseas as Captain of Company F, 348, Field Artillery, staying with the Army of Occupation until 1919, when he returned home.

Technological College is destined to fill a high place in the educational system of Texas, and it would indeed be fitting that it should be inaugurated under the leadership of a man of such standing and attainments as Clarence Ousley. When the deadlock among the members of the board is finally broken it is to be hoped that the choice for this important place will fall to Mr. Ousley.

EVILS OF OVER ZEALOUSNESS

A great many of our people are inclined to take too seriously the many little differences that arise in high school athletic relations. Most of these differences result from a commendable spirit of zeal and patriotism and loyalty to the home team.

Healthy athletic rivalry is good. Rivalry of the right sort between towns is good, and big-minded people have no feeling of jealousy or envy when their neighboring town scores a well-earned victory in athletic, business or industrial fields.

Vernon and Quanah are to play here today. May the best team

place where their highest mark of physical efficiency is reached. From their football record we should be able to compute their possibilities in other lines of endeavor. What students they would make if they worked as hard and understood the rules as well in their books. What magnificent MEN they would make if they afterward played the game of life as hard and as fair as they play football. And the lessons learned on the football field may be carried over and applied by many of our boys in the later game of life. Let's hope so any way. It is the intensity of the game and the players that makes it so attractive. Life would be the same if we put the same effort into it.

In a way football and fairs are very much alike. A fair is supposed to bring out the very best there is in the whole community or county and register it. Hold the record of the best up to the county and the State as an example of the county's best efforts. It helps the individual and the county to see where they are not doing their best and encourages them to try again and use the new knowledge learned by the records of others. It simply classifies us all and registers our classification as farmers, stockmen, garden makers, educators and everything else that goes to make up the whole of life.

There is another lesson we have learned from the football boys and the fairs. Have you noticed when a boy KNOWS he did his best, that he used every bit of the skill and power in him that it is easier for him to take defeat when he is knocked out. Even though the whole crowd goes home defeated they feel good if they know every fellow did his dead level best. Another team measured up just a little higher. That's all. The defeated team has another goal of efficiency to work for. You can stand most any defeat in this life if you have the inner consciousness that you did your best. It is when we fail because we did not take that regret and remorse takes hold on us. That's what causes worry.

There is a new kind of education being applied today in a few of our communities. It is called Sociology. Seems like you have to get up pretty well toward the top of some college or university degree before you find out you are just a human being and that everybody else is a human being too whether they ever went to college or not. And did you

know that they are beginning to measure human beings and whole families and communities to see how they compare with their neighbors if they were to be placed on exhibit. Or if they were to appear on the football field of life to fight the game of life, with the rest of the world on the opposing side. That's the difference between football and the game of life. In football the opposing sides are supposed to be about equal, but in the game of life it's YOU on one side and the whole world on the other and most of us have to buck the blue alone. It's a wonder anybody ever kicks a goal or makes a touchdown. But once in a long while some fellow will.

Well, in some of our greatest universities they are sending their students in sociology out into the different communities to take the measure of that community's ability to do things; its intellectual strength; its financial power; its physical measurements; its spiritual assets; its home conditions and schools and commercial outlook. And these students go back to their class room and report what they have discovered in that community and from this knowledge they compute what that community could do with its different assets if it WOULD. Pretty good plan. A lot of our communities could do a lot more than they are doing if some outsider would only come along and

Ford
THE UNIVERSAL CAR**New Roadster**

Business men—with whom the runabout has always been very popular—are well pleased with the changes embodied in this model. Always rugged, the car has been made decidedly trimmer and more comfortable.

This result is obtained by raising the radiator and enlarging the cowl; making a decided improvement in looks and providing more leg room.

A well designed top and slanting windshield do their share toward adding a finished, clean-cut appearance.

Make it a point to see the other new models also on display in the nearest Ford dealer's show room.

CHLOROFORMS WIFE FOR HEADACH

My daughter has suffered with stomach trouble and headaches for 3 years. My wife had headaches so bad we had to chloroform her. I also suffered with stomach trouble for years. My wife, daughter and I all used Ferrasol with wonderful results. My daughter is feeling better than she has in 3 years; my wife's headaches have left her and there has been a wonderful change in me. Anyone doubting this testimonial write or call me and I will at any time recommend Ferrasol.

CAMP FIRE HAS GROWN TO CITY

FORT WORTH LOCATION WAS CHOSEN FROM SCOUTS' FIRST CAMP

Fort Worth, Oct. 23.—The flickering campfire of a single scout of the U. S. Army glowing on the banks of the Trinity river in 1848 really determined the location of the city of Fort Worth.

This sturdy scout, courageously defying danger of savages and wild animals, mapped the course of a system of forts designed to control the Indian and American, the vast tracts of territory according to this country through the annexation of Texas and the conquest of the Mexican war. The unknown warriors of Fort Worth's destiny will be fittingly commemorated in the historical pageant which will feature the celebration of the Diamond Jubilee in Fort Worth Nov. 11 to 14. A young scout will picture the selection of the land in the river upon which Major Bishop Arnold built the military post of Fort Worth.

They are wearing old army hats and 5-gallon hats now in Fort Worth in honor of the Jubilee. Outfitted of all periods of American history may be seen on the streets, those of fifty and seventy-five years ago predominating. Ghosts from out of town may appear at all times from now until the middle of November in grandeur and grandeur's old little stored legs and feet perfectly at home. Thousands of men, women and children in Fort Worth will bear their company.

Pagentry, parades, and pioneer diversions will feature the four days of merry-making, and everything practically will be free. The historic pageant, the stage and pony express races, all of the amusements of the Pioneer Village and the Indian exhibitions will be offered without charge to all guests. No fakers or carnivals will be allowed within the corporate limits of the city.

The Victory ball, which will be held in three sections on the night of Monday, Nov. 12, collects a small fee for dancers, but all money thus raised goes to the fund for Disabled soldiers. This Victory ball is simply one of the thousands of Victory balls held every year for the Disabled Veterans' fund all over the United States, under the auspices of the American Legion.

The coach and express races will be picturesque details of the Jubilee celebration. Homer D. Wade, assistant manager and Fort Worth representative of the West Texas Chamber of Commerce, has charge of the Stage Coach race. There will be no matching of team against team in this race, but the hazard will be one of time only.

The pony express race is a revival of the old time custom of carrying the mail by horse relayed every few miles. In the Jubilee race, three horses, or ponies, will be necessary, for relays every two miles in a six-mile race. Ed Bateman, Fort Worth, has charge of this race.

All Texas mayors have been invited to be guests of Fort Worth on Mayors' Day, Nov. 13. The Kiwanis club has charge of this part of the program, and acceptances are coming in every day to the club secretary.

A "come play with me" spirit will pervade the celebration from start to finish. Mayor Cockrell has ordered a section of downtown several blocks in extent roped off and arranged for pioneer shows, soft-drink bars, pioneer shows, games, and stunt features. Everything in the pioneer village will be free.

Second Annual Rodeo at Memphis November 8, 9, 10

Memphis, Texas, Nov. 29.—Mayes Brothers, producers of Cowboy Round Ups, have been in Memphis this week, making preparations for the opening of the second Annual American Legion Cowboy Round Up, which will be held here November 8, 9, and 10.

Arrangements are being made for the big program. Paul James, director of the Memphis Band, is taking a great interest in the rodeo, and is making arrangements for about five different bands to join in the Cowboy and American Legion parade on Saturday, November 10. These bands will pass in review before the grandstand.

The Memphis Chamber of Commerce Gray Mare Band, The Majestic Band of Turkey, 20 pieces; Paul James' Clown Band, 10 pieces; the Wolfington Chamber of Commerce Band, 20 pieces; Memphis Boy Scout Band, 20 pieces.

With these bands, there will be plenty of music to accompany the dare-devil stunts of the daring cowboys and cowgirls.

Roy Mayes, rodeo manager, states that many cowboys are writing in for the prize lists from all parts of the country. He also states that prospects are bright for a much greater show than that staged here last year and that twice as many cowboys will participate.

Some of the bucking horses that are almost unrideable are: I-be-dam, Silver, Blue Bonnet, Aero-plane, With-No-Name, Flaxy, White Deer, Ranger Boy and many others.

HALLOWE'EN IS PEACEFUL EVENT

PRANKS BY YOUNGSTERS NOT DESTRUCTIVE SAYS MARSHAL

Despite the fact that Vernon youngsters had one of the times of their lives Halloween night, Vernon came out of the dark in better physical condition than ever before, according to officers. "I want to thank the boys for observing the rules and not destroying property as has been done in the past," said City Marshal J. D. Key. The Marshal said that an inspection of the city showed very little damage of any kind done. In some parts of the town, the flames were uncontrolled, but were quickly extinguished, and a good many jokes were played but they were most all within the bounds of reason, officers said.

Early Halloween night the streets were crowded with "ghosts" and people, masked as clowns or dressed in old garb of many kinds. Automobile horns tooted and youngsters blew horns. Even the Vernon Concert Band members were out for a good time, all dressed up as Zappanians and pulled some of the famous Zappanial stunts.

These horses have thrilled some of the greatest crowds in American. Young, wild stunts that are difficult to handle will be used in steering and bulldozing. Expert assistants will be employed to keep the program going.

The show will be on, doubt, be greater than ever before. It will be a real contest for real cowboys and cowgirls from the ranches of the West, including the world's greatest rodeo stars.

Leaf Worm Here Is Mild Compared With Other Places

Willamette county farmers have the satisfaction of knowing that the few leaf worms that showed up in their cotton following the heavy rains were by no means to be compared with the many that visited other parts of the cotton belt or even went outside the cotton country. The following report from the United States Department of Agriculture tells of the destruction wrought by the pest elsewhere:

The most serious outbreak of the cotton leafworm has occurred for several years is reported to the United States Department of Agriculture this year throughout the Cotton Belt. Northern flights of the moths brought them into New England and the Lake region during the first half of September, where the moths damaged fruit, especially peaches, by feeding. In Massachusetts the moths were reported so thick that they covered show windows, automobile wind shields, and are lights, and in Rhode Island they were shuttling, noted.

EDUCATION WORTH MONEY TO FARMERS IN REAL CASH

"In dollars how much does education increase the earning capacity of the young farmer?" is a question asked by the U. S. Bureau of Education. Some of the State Agricultural Colleges are publishing figures in answer to this question.

The Georgia Agricultural College collected the facts from 1,271 farmers of that State and found that those who had no schooling earned on an average of only \$240 a year, those with a good common school education earned \$285 a year and those who had completed a high school course earned an average of \$634. The men who had completed an agricultural short course earned \$896 and those who had graduated from the agricultural college were earning an average of \$1,254 a year.

The Kansas Agricultural College had 1,237 reports. The average young farmer with a common school education earned \$422 a year, the high school graduate \$554. The men who had taken the short course in agriculture earned an average of \$850 a year, and the college graduate \$1,492.

UNIVERSITY STUDENTS HAVE SPECTACULAR CHANCE FOR PRIZE

Austin, Texas, Oct. 26.—For the purpose of encouraging literary productivity among students and ex-students of the University of Texas, D. A. Frank of Dallas has offered a prize of \$500 for the best novel written by a student or an ex-student of that institution, and submitted before March 1, 1934. Manuscripts must be 50,000 words in length. No limitations are set as to theme or setting, but it is hoped by the donor that the South-west will be treated by contestants.

D. A. Frank is an ex-student of the University, having received a LL. B. degree in 1903 and a B. A. in 1905. While in school he became interested in student composition and with the assistance of Dr. K. H. Campbell, of the English department originated a poetry prize for University students which has been awarded for several years.

AID TO WHEAT GROWERS IN FIGHTING DISEASE

With hundreds of acres of wheat up and growing Willamette county and many hundreds more planted, the farmers are on the alert for all enemies of this crop. The following bulletin on fighting "Rust" may be of interest to wheat farmers. Our attention was directed this summer at the use of Copper Carbamate in treating wheat to control "Rust" or staining rust, besides other fungus diseases, advises R. H. Roppert, entomologist. Investigation reveals that this has been used with success by a number of experiment stations, and we were informed by Dr. Taubenhans of the Texas Experiment Station, that it could be safely used in place of the formaldehyde solution.

Only copper carbonate of high quality should be used. It should be very finely powdered, so as to adhere as a dust to the grain of wheat. It is applied dry to the seed, but for cereals being used for feed, it is applied in a sack or barrel will distribute the chemical over the seed.

MUDDY ROADS BOOST BONDS

FARMERS SAY RAINY WEATH-
ER CONVERTS THEM TO
ROAD BONDS

Condition of roads in Wilbarger
county during the present and
especially during the period of heavy
rainfall constitute one of the best
arguments for road bonds, accord-
ing to many farmers who came into
Vernon during the rain. Some farm-
ers were so completely isolated they
were unable to come to town save
on horseback and one farmer is
said to have hitched four mules to
a wagon to come in for a sack of
flour and a few other articles of
food.

Although Electra was not at all
bothered by blocking of traffic be-
tween that point and Wichita Falls,
people from Electra were entirely
cut off from Vernon save by rail
and people from Vernon could not
get to Electra to transact business
unless they went by rail or spent
several hours in the mud and dam-
aged their cars. The gay of road
in Wilbarger county beyond the
paving and before the Wichita
County paving is reached, has been
almost impossible for more than a
week.

Farmers who live on or near the
paving were able to come to Ver-
non as often as they liked and kept
in touch with affairs just the same
as persons who lived in town. Many
farmers who had automobiles had
lived miles from the paving, had no
use for their cars at all and were
just as far from town as if they
did not own automobiles.

QUANAH IS HERE FOR BATTLE ON GRIDIRON TODAY

Runs Special Train Bringing
Boosters to Witness Elimina-
tion Game With Vernon
at Fair Grounds This After-
noon at 3:15 O'clock

Out on the gridiron at the Fair
Grounds this afternoon at 3:15
o'clock one of the hardest football
games this section of Texas has
ever known is to be played. The
game between Quanah and Vernon
to see which team plays Wichita
Falls for the championship of this
end of the district, must be played
this afternoon rain or shine, sleet
or snow.

Hundreds of Vernon residents are
going to the game today to boost
for the home team and the Vernon
Concert Band is to be there to fur-
nish music. Most all of the busi-
ness houses have let a majority of
their employees off to see the game
and from nearby town scores of
people have come.

Quanah is running a special train
to accommodate the crowd from
there which is coming to back up
their high school team. The town
is solid behind its team and are
coming here with a determination
to see their boys win over Vernon.

Wichita Falls will have several
scouts here to watch the game,
among them being Coach Bud Mc-
Callum of the Wichita Falls high
school team which will play the
winner of the game today.

Coach Galbraith expressed confi-
dence this morning that the Vernon
team will be able to hold its own
with the heavy Quanah aggrega-
tion. Quanah's weight will be in
its favor on the muddy field, but
the local team has a whole lot to
boast about which is expected to
make up for the surplus. It is
highly probable that Coach Gal-
braith will not start all his first
line men in the game, but will put
them in if Quanah shows too strong
a team for the first line up to han-
dle.

SENSATIONAL CHARGES MADE AGAINST FORBES.

Col. Charles R. Forbes.

Sensational charges have been made at a Senatorial investigation
committee meeting in Washington against Colonel Charles R. Forbes,
former Director of the Veterans' Bureau. He has been charged with
borrowing \$5,000 from a contractor, to whom he is said to have given
advance information as to the location of proposed hospitals; of having
been on wild drinking parties with the same man; of having planned to
sell, illegally, large stores of Government narcotics; and of having planned
a personal profit of \$150,000 on hospitals for veterans. Forbes resigned
early this year, when disabled ex-service men protested they were not
being justly treated.

THIRTY CENT COTTON AGAIN

SPOTS AND FUTURES CLIMB
ON GOVERNMENT CROP
CROP REPORT

Spot cotton was up to 30 cents
per pound today following the Gov-
ernment's supplemental report
which showed the total crop to be
10,218,000 bales, or approximately
1,000,000 under the original govern-
ment estimate.

Futures started climbing shortly
after a skirmish between bears and
bulls at the early opening and be-
fore noon December New York had
gone to 31.40 with December New
Orleans delivery at 30.88.

Great Englishman Dies Following Severe Illness

Andrew Bonar Law, one of En-
gland's greatest statesmen and the
only colonial who rose to the po-
sition of Prime Minister, died in
London this week. His death came
following an illness of several
months due directly to a nervous
breakdown, physicians said.

Bonar Law was one of the fore-
most of England's war time states-
men and the policy of that nation
during the world war was shaped
to a great extent, by him and oth-
ers of his political faith. He had
many enemies, however, and ill-
President Harding, he practically
gave his life for his country al-
though he retired from politics
some time before death came.

FIRST CASE IS TAKEN UP HERE UNDER NEW LAW

Man Arrested Last Night To
Be Charged With Driving
Automobile While Intoxi-
cated According to District
Attorney

The first case in Wilbarger coun-
ty to be handled under the new law,
which makes it a penitentiary of-
fense to drive an automobile while
intoxicated has been given to the
grand jury here, according to offi-
cers. Duke Davis, of Electra, was
arrested last night on the Electra
Road just after he is said to have
driven head on into an automobile
driven by Miss Maybelle Nabers and
District Attorney John Storey said
this morning that Davis will be
charged under the new law.

Sheriff Frank Edmondson had re-
ceived a call that someone was dy-
ing in the small creek that crosses
the Electra road out on the paving.
He rushed to the place and found
that a horse had fallen in the creek
and it was the groans of the horse
that sounded like someone dying.
The sheriff drove up on two badly
wrecked automobiles. An investi-
gation proved, the sheriff said, that
Miss Nabers with Maury Hopkins,
secretary of the Flovayda Chamber
of Commerce, and Miss Alline Hop-
kins, the latter's sister, were driving
at a slow rate of speed along the
pavement when they were run into
by the automobile driven by Davis
who had in the car with him Tom
Jones, also of Electra. Both Davis
and Jones were arrested by Sheriff
Edmondson.

Miss Nabers' car was badly
wrecked and the car driven by the
other party was also damaged but
no one was injured. This morning
witnesses in the case were called to
the grand jury room.

The new law is very stringent. It
makes it a penitentiary offense for
any person to drive an automobile
while intoxicated. Until today no
cases had been filed in this county
under the new law, but officers said
that in the future there may be
more of them.

CAPT. WATSON ON TRIAL IN SHIP DISASTER

Captain E. H. Watson.

Captain Edward H. Watson, U.
S. N., who commanded Squadron 11
of the Pacific fleet, from the flag-
ship Delphy, is now on trial, with
10 of his officers, before a general
court martial, in San Francisco, in
connection with the wrecking of
eight of his vessels, which were
piled up on the rocks of the Cali-
fornia coast in a thick fog. All
the vessels were total wrecks.
Several lives were lost. It is ad-
mitted the ships were far off their
course when the accident occurred.

The ruling on this point was that
since the bond issue had been de-
clared invalid and the City retaining
from issuing or selling these
bonds there was no longer any nec-
essity for holding the money collect-
ed to pay interest and sinking funds
in a separate account.

The case decided today is the
same one which the Court of Civil
Appeals last week reversed and re-
manded and ordered the local court
to issue a restraining order against
the continuance of certain alleged
improper handling of funds and ac-
counts by the city until the case
could be heard more fully on its
merits. On a previous hearing had
early last month Judge Leake denied
a temporary injunction and it was
on this question that the case was
taken to Amarillo for decision.

SPECIAL MEETING OF TUTS CALLED NEXT THURSDAY

Important Matters Coming Up for Discussion at Dinner To Be Served During Business Session at Bailey Hotel

The King Tut club will meet in the Sun Parlor of the Bailey Hotel next Thursday night at 7 o'clock to transact important business. A dinner will be served at the time and the only program will be one of business. The meeting was decided upon when a quorum of members met in the Chamber of Commerce rooms last night.

Emphasis was placed on the fact that every member of the Tut club should be on hand for the meeting. Thursday night has become a vital importance not only to the club but to the Vernon community for discussion.

On the night of November 20 the Tut club will be guests of the West Texas Chamber of Commerce at a dinner to be given at the Liberty Cafe. President Spencer of the West Texas Chamber of Commerce will be here to preside at that meeting and there will be an elaborate program. Since the Tut club has considerable business to transact, it is a matter of course that the meeting for next Thursday night was decided on as the best time to transact all business now pending.

Every member of the Tut club has pledged himself to an active campaign in behalf of Vernon and for that reason the officers expect all members to be at the meeting Thursday night. The membership of the club is composed of men and women who are pledged to live up to the motto, the main one of which is to attend the meetings and be an active worker for the good of the community at all times.

BOXES TO BE SENT BY BAPTIST WOMEN

The women of the Baptist church have been very busy for the past two weeks making boxes and gathering supplies for the Buckner Orphan's Home. Last week two large boxes well filled with things to make the children of the home comfortable were sent to Dallas. This week another box is being prepared. The contents will be sent away next week. Donations in the way of clothing for the children, bed linen, shoes or money for the home are sent either to Mrs. J. O. Wright or Mrs. J. O. Rouse.

On account of the continued bad weather, the box to be sent to Miss Groves, missionary in China, was not shipped Wednesday as announced. The box will be sent Monday. Any gifts for the box will be received by Mrs. J. O. Wright and Mrs. J. O. Rouse for packing. Senders of Victoria records are asked to take them to the Pendleton Music store where Mr. Pendleton will pack them carefully for their long journey.

The committee asks that the gifts be sent in right away for both boxes.

DAVE BANCROFT.

Dave Bancroft, shortstop for the New York Giants, writes:

"I have used FERRASAL for a year with splendid results. During the playing season, whenever I was troubled with indigestion, I took FERRASAL and it kept me in fine condition all year. I have given FERRASAL to friends with the same splendid results."

DAVE T. BANCROFT.

Care New York Giants.

Dave Bancroft has been benefited by FERRASAL and recommends it from actual experience.

90% of our health troubles begin with indigestion. The real cause is excess acid. FERRASAL acts at the source of the trouble by neutralizing the excess acid and expelling it from the system. It also aids digestion, keeps the alimentary tract clean and discharges the kidneys regular.

FERRASAL is not a purgative. It is a mild, laxative and absolutely harmless.

Take FERRASAL REGULARLY NIGHT AND MORNING FOR A WEEK. It will sweeten your blood, clear your skin and improve your general health and your money.

BERS TO BE GUESTS OF
W. T. C. OF C.

Detailed plans are being made for the big dinner to be given by the West Texas Chamber of Commerce on the night of November 20 to the members of the King Tut Club. The dinner will be served by the Liberty Cafe, the West Texas organization having arranged to obtain the dining room for the evening.

President A. B. Spencer of the West Texas Chamber of Commerce will be here to act as host and to be meeting a campaign will be launched for more memberships in the West Texas Chamber of Commerce. While there are a large number of votes here now in the organization there are not as many in some other towns that are holding the 1925 convention and number of memberships here will be one of the big weapons in the fight for the 1925 convention.

INSURANCE MEN HAVE BIG TIME IN DALLAS

Dewey Wilson has returned from Dallas where he attended a convention of the Texas agents of the Pacific Mutual Life Insurance Company. Mrs. Wilson accompanied him to Dallas and remained over to visit relatives for several days. Wilson said the insurance men were royally entertained, the banquet being given for them at home of the district manager, two at the Adolphus hotel, were also guests of the banquet shows and on sight seeing.

DEER SEASON OPENED NOV. 1

HUNTERS FROM VERNON SO MAKE PLANS FOR SPORT

The muddy roads leading to the hunting territory in Wilbarger county have not been inducive to hunting during the past few days. Sportsmen have managed to get through the mud to their favorite haunts and report ducks coming in fast. A few hunters are said to have gotten very near the bag.

Porting goods dealers report a demand for guns and ammunition. Some Vernon sportsmen were planning to go into deer hunting territory for the opening of the deer season yesterday, but were deterred on account of the muddy roads. Others, however, went on horse trains to the nearest railroad station from the hunting grounds and took a chance on the roads.

A small grocery store operated by Lanier on Fannin street was destroyed by fire at an early Wednesday morning. The store was only partially covered by insurance and the loss, which was owned by C. H. was not insured. The fire had not been detected.

TEXAS AGGIES WANT VENGEANCE

SECRET TRAINING INDICATES TEAM HAS GAINED STRENGTH

College Station, November 2.—The brisk weather of this week has enabled the Aggies to train for the Baylor Bears whom they will meet on the Cotton Palace gridiron Saturday with vim, vigor and vitality and to the scribes and other privileged ones of more or less official authority who have been able to penetrate the wall of secrecy that has been placed around the training field at practice periods it appears that the Aggies have recovered from the slough of dejection which was a consequence of the drubbing which S. M. U. gave them on Kyle Field last Friday.

It is a weak done that can be compounded for the Aggies' conduct in the game Saturday, so apparently weak as to make it seem unreliable for any dependence and so doubtful as to be hardly acceptable to sports editors. As ingredients for any dose of speculation there are the elements of the finest kind of play displayed by the Aggies in all games preceding that of last week and then the evidence of utter disorganization which came to light in their game last Friday. Their game against Soconawance and L. S. U. would put the Bears in insignificant position in comparison and their game against the Mustangs would certainly make the Aggies the underdogs in the coming Saturday fray.

And there seems to lodge the most dependable indications. The Farmers have always fought their best fights in the underdog position. They seldom follow a course of action prescribed for them by the sports writers. They ascend to pinnacles of glory by entering the lists in disfavor with the betters and they fall upon their backs when they rush on the field under the admiring glance of unanimous confidence from the grandstands. They make points when none are expected and fail to score when they are credited in advance with the power to pile them high.

It would be another upset for them to continue the race set against the Mustangs on the Waco field Saturday. No subject are they to the law of reversion that it is most likely that they will exhibit the strength or weakness of other days than that of last Friday, this week. The strenuousness of their play in practice this week indicates they have swung into the harmonious pace set earlier in the season. As usual the Aggie hosts will accompany the team, fully confident that the game Saturday will in its scintillating glory outside the dark despair which clouded their hopes when the sickening thud of the Aggies' fall from the high place they had achieved for the final dive to the Southern Championship struck their consciousness. That they want revenge and that they have no scruples in taking a pound of it from nearest the heart of the Bears is undeniable to those who remember who it was that shook them from the limbo of the championship hopes last year.

WASTE OFTEN FOLLOWS HASTE.

Some residents of the county have suggested that there is no occasion for haste in voting additional bonds for the pavement of the roads of the county because the money voted two years ago has not yet been expended. A little investigation of the reasons for the seeming tardiness in spending the bond issue voted in October, 1921, will convince most people that the Commissioners' Court has followed the safe policy. The Record believes.

In the first place, there is much preliminary work to be done in inaugurating a road building campaign. First of all the roads must be laid out and plans drawn for them, just as an architect draws plans for a house. These plans then must be approved by the State Highway Commission and the Federal Bureau of Good Roads, where the road to be improved is a Federal aid project. After this is done the contracts must be let and the contractors have to begin assembling machinery and materials.

In most cases an entirely new road grade must be thrown up and a new grade must be given ample time to settle before it is wise to begin laying concrete. One of the reasons for the delay in the work on the Colorado-Gulf highway is because of this fact. Still another factor must be taken into consideration is the matter of hastily building roads. It is far better for the taxpayers that the roads be first class than that they should be built in a short time. It is impossible to spend a great sum of money on any kind of a project in haste without unnecessary waste. The Commissioners have preferred to move more slowly rather than to rush through with their road construction and take chances on getting good value for the money expended.

Engineers from the State and Federal road departments have repeatedly stated that Wilbarger County is getting better roads for the same or less money than any other county in Texas. In the opinion of The Record this result is ample justification for the lack of haste in carrying out our road building program.

MR. OUSLEY'S FITNESS FOR THE TECH PRESIDENCY.

Newspaper reports declare that the board of regents of the Texas Technological College have been unable to agree on the election of a president, stating that the members of the board deadlocked between B. H. Cobb of Waco and Clarence Ousley of Fort Worth.

The Record knows nothing about Mr. Cobb or his qualifications for the presidency of the new school, but there can be no doubt of Mr. Ousley's ability. He is one of the most scholarly men in Texas. He is one of the best known men in Texas and his fame as a man of unusual attainments is by no means confined to this state. He served as assistant Secretary of Agriculture during the Wilson administration and his work during the war through the Department of Agriculture and with the Texas Agricultural and Mechanical College won the admiration of his associates throughout the country.

Mr. Ousley's selection to head the new state school would give the institution a prestige and a dignity that would prove an invaluable aid in getting its work started under the most favorable conditions.

The Record believes that the

NEW COMMANDER OF AMERICAN LEGION.

Captain John R. Quinn in 1922, at New Orleans, invited the American Legion to meet at San Francisco in 1923, and to prove that the Legionnaires appreciated the invitation and the good time they had in the Golden Gate City they elected Quinn their new National Commander. Quinn, who was born in Porterville, Cal., in 1889, lives now in Delano, Kern County, Cal. He graduated from the University of California in 1912, joined the Second Officers' Training Camp at the San Francisco Presidio and went overseas as Captain of Company F, 348, Field Artillery, staying with the Army of Occupation until 1919, when he returned home.

Technological College is destined to fill a high place in the educational system of Texas, and it would indeed be fitting that it should be inaugurated under the leadership of a man of such standing and attainments as Clarence Ousley. When the deadlock among the members of the board is finally broken it is to be hoped that the choice for this important place will fall to Mr. Ousley.

EVILS OF OVER ZEALOUSNESS

A great many of our people are inclined to take too seriously the many little differences that arise in high school athletic relations. Most of these differences result from a commendable spirit of zeal and patriotism and loyalty to the home team.

All of us want to see our team win, but when some little misunderstanding arises we should consider for what is right and avoid impugning the motives of the supporters of rival teams. There have been several unfortunate hitches in the arrangements for playing off the tie game between the Vernon and Quanah teams. But we should all remember that Vernon people and the Quanah people are neighbors and that we should also be friends.

Healthy athletic rivalry is good. Rivalry of the right sort between towns is good, and big-minded people have no feeling of jealousy or envy when their neighboring town scores a well-earned victory in athletic, business or industrial fields.

Vernon and Quanah are to play here today. May the best team

place where their highest mark of physical efficiency is reached. From their football record we should be able to compute their possibilities in other lines of endeavor. What students they would make if they worked as hard and understood the rules as well in their books. What magnificent MEN they would make if they afterward played the game of life as hard and as fair as they play football. And the lessons learned on the football field may be carried over and applied by many of our boys in the later game of life. Let's hope so any way. It is the intensity of the game and the players that makes it so attractive. Life would be the same if we put the same effort into it.

In a way football and fairs are very much alike. A fair is supposed to bring out the very best there is in the whole community or county and register it. Hold the record of the best up to the county and the State as an example of the county's best efforts. It helps the individual and the county to see where in they are not doing their best and encourages them to try again and use the new knowledge learned by the records of others. It simply classifies us all and registers our classification as farmers, stockmen, garden makers, educators and everything else that goes to make up the whole of life.

There is another lesson we have learned from the football boys and the fairs. Have you noticed when a boy KNOWS he did his best, that he used every bit of the skill and power in him that it is easier for him to take defeat when he is knocked out. Even though the whole crowd goes home defeated they feel good if they know every fellow did his dead level best. Another team measured up just a little higher. That's all. The defeated team has another goal of efficiency to work for. You can stand most any defeat in this life if you have the inner consciousness that you did your best. It is when we fail because we did not half try that regret and remorse takes hold on us. That's what causes worry.

There is a new kind of education being applied today in a few of our communities. It is called Sociology. Seems like you have to get up pretty well toward the top of some college or university degree before you find out you are just a human being and that everybody else is a human being too whether they ever went to college or not. And did you

know that they are beginning to measure human beings and whole families and communities to see how they compare with their neighbors if they were to be placed on exhibit. Or if they were to appear on the football field of life to fight the game of life, with the rest of the world on the opposing side. That's the difference between football and the game of life. In football the opposing sides are supposed to be about equal, but in the game of life it's YOU on one side and the whole world on the other and most of us have to buck the line alone. It's a wonder anybody ever kicks a goal or makes a touchdown. But once in a long while some fellow will.

Well, in some of our greatest universities they are sending their students in sociology out into the different communities to take the measure of that community's ability to do things; its intellectual strength; its financial power; its physical measurements; its spiritual assets; its home conditions and schools and commercial outlook. And these students go back to their class room and report what they have discovered in that community and from this knowledge they compute what that community could do with its different assets if it WOULD. Pretty good plan. A lot of our communities could do a lot more than they are doing if some outsider would only come along and

 THE UNIVERSAL CAR

New Roadster

Business men—with whom the runabout has always been very popular—are well pleased with the changes embodied in this model. Always rugged, the car has been made decidedly trimmer and more comfortable.

This result is obtained by raising the radiator and enlarging the cowl; making a decided improvement in looks and providing more leg room.

A well designed top and slanting windshield do their share toward adding a finished, clean-cut appearance.

Make it a point to see the other new models also on display in the nearest Ford dealer's show room.

These cars can be obtained through the Ford Weekly Purchase Plan.

Description of work to be done: The proposed work consists of the construction of 3.62 miles of eighteen foot one-course reinforced concrete pavement. The estimated quantities are 116,869 pounds reinforcing steel bars and 38,255.2 square yards concrete pavement. Detailed plans and specifications of the work may be seen for examination, and information may be obtained at the office of Jno. B. N.

CHLOROFORMS WIFE FOR HEADACH

My daughter has suffered with stomach trouble and headaches for 3 years. My wife had headaches so bad we had to chloroform her. I also suffered with stomach trouble for years. My wife, daughter and I all used Ferrasol with wonderful results. My daughter is feeling better than she has in 3 years; my wife's headaches have left her and there has been a wonderful change in me. Anyone doubting this testimonial write or call me and I will at any time recommend Ferrasol.

bers, County Engineer, at Vernon, Texas, and at the office of the State Highway Department, State Office Building, Austin, Texas.

A certified, or cashier's check for five percent without recourse to the order of O. T. Warlick, County Judge, of Wilbarger County, must accompany each proposal, as a guarantee that the bidder, if successful, will enter into contract and make bond in accordance with requirements of the specifications. The right is reserved by the party of the first part to reject any and all proposals or to waive all technicalities.

Proposals shall be submitted in sealed envelopes and marked, "Bids for the Construction of the Surfacing F. A. P. 276-A Road in Wilbarger County."

All bids received will be retained by the Department and will not be returned to the bidders.

Queer Feelings

"Some time ago, I was very irregular," writes Mrs. Cora Robie, of Pikeville, Ky. "I suffered a great deal, and knew I must do something for this condition. I suffered mostly with my back and a weakness in my limbs. I would have dreadful headaches. I had hot flashes and very queer feelings, and oh, how my head hurt! I read of

CARDUI

The Woman's Tonic

and of others, who seemed to have the same troubles I had, being benefited, so I began to use it. I found it most beneficial. I took several bottles . . . and was made so much better I didn't have any more trouble of this kind. It regulated me."

Cardui has been found very helpful in the correction of many cases of painful female disorders, such as Mrs. Robie mentions above. If you suffer as she did, take Cardui—a purely vegetable, medicinal tonic, in use for more than 40 years. It should help you. Sold Everywhere. E 30
